

Garbage sorting and delivery learning										Produce and sort waste (At home)						Delivery (In the community)								Waste Disposal & Recycling					
<b>Sort garbage_Shanghai_laos_hansasicun community</b>	Waste sorting knowledge popularization	Moving into the house: Know the trash cans in the house	Finding a garbage sorting station	Find the garbage room (Opening hours)	Waste generation	Put in garbage bag	Dumpster opening hours, Take your garbage to the nearest garbage room	Putting out garbage: -Separation of garbage under the supervision and guidance of the garbage room manager	In the garbage room, washing hands	After the garbage room is closed at night, you can put your garbage in the mixed garbage can in front of the garbage room.	Recycling	disposal																	
Current	Community entrance bulletin board: garbage sorting posters (four categories of garbage sorting, drop-off time, location of garbage stations)	Community Manager: ... Community Resident ...	Images		-Food waste -Other garbage -Returnable paper,glass																								
Persons	Community resident-Dongya	Zuo Mr.	Zhang Mrs.	Yin ni	Sun Mrs.	Sun Mr.	Lu Mr.	Zhou Mr.																					
Actors	The landlord has purchased and collected enough bags for various kinds of garbage. The garbage bins are sufficient for use. However, there is no information on garbage sorting	The map information of the dumpster houses in the community is inaccurate. Find the dumpster house only through the guidance of passersby	Generally like to go at night to throw the garbage	Need to think about it	Often misses garbage room opening hours	I usually have very little garbage, that is, some kitchen garbage	Life is simple and produces very little waste.	Unconscious people are very much in need of constant supervision	Wash your hands after throwing away trash to maintain cleanliness and hygiene.	1. Recyclable waste to staff 2. Send the cartons to the person in charge of the garbage room.	1. Recyclable waste to staff 2. Send the cartons to the person in charge of the garbage room.	1. Recyclable waste to staff 2. Send the cartons to the person in charge of the garbage room.																	
Journey owner	Knowledge of waste sorting is promoted on the Internet and at public facilities	Trash cans in every room	I produce very little garbage and throw it away every day	Residents do not use all of the separated household garbage cans issued by the neighborhood association	The location of the dumpster room set after discussion with the cleaning staff	Many people throw their trash in the hallway	The community would give training to us as volunteers first. A small class on garbage sorting.	Arrange for staff to look after the dumpster room. The workload is heavy.	After you miss the garbage room opening time, you can throw your garbage in the mixed garbage can at night.	Deliver recyclable items to the person in charge of the garbage room.	Deliver recyclable items to the person in charge of the garbage room.	Deliver recyclable items to the person in charge of the garbage room.																	
TheyDo Export / Jun 19, 2022, 3:29:01 PM	The trash cans are located downstairs from where you live. Community volunteers help to divide the garbage	1. Posters for waste separation were posted on community bulletin boards. 2. Signs guiding the garbage cans were also set up in the community.	1. The community first gave us training on garbage separation and had to take a test. 2. I supervise and guide the residents to separate garbage	Organize cleaners in the community to learn and cooperate with waste separation	Transporting dry waste from the community to a waste treatment plant that treats dry waste			Easy to clean dumpster room	We also provide soap next to the sink.	Give the carton to the person in charge of the garbage room.	Provide contact information for partner recyclables recycling companies that residents can call.	Wait for the garbage heads to come to the garbage room every day and dump the garbage into the garbage truck. Then clean the garbage cans.

Mood (Motivation, Emotion)																													
Pain points	-Dumpster room map and instruction icons are not clear There is so much crap of each type that it is hard to remember	Ordinary household garbage cans with no identification of garbage category The community map is not clear, just a piece of paper	The community has distributed separated garbage cans, but most people are not used to using them Community-issued trash cans are uniform, and there is not much choice of sorted trash cans	Community-issued bins are not differentiated in terms of style and size. For example, the same style of bins used in bedrooms, kitchens, bathrooms and living rooms Residents think a dumpster is fine, but it doesn't meet the need for waste separation.	Inconsistency between community display boards and actual changes in implementation Garbage bin room fixed opening hours, other times can not put garbage Dumpster room signage, incomplete information, lack of direction, unclear text, and content of the information is not clear, it is difficult to accurately locate, while the actual opening hours of the dumpster room and the displayed time is not consistent The opening hours of the garbage bin room do not apply to everyone, especially young people	Garbage bags are also garbage Household waste sorting with few information tips Storage of garbage bags Most of the garbage bags used are plastic bags, and also garbage Garbage bags do not distinguish between types of garbage	Can't completely separate garbage correctly Uneven arrangement of dumpster rooms and insufficient density Putting out garbage without removing garbage bags Sometimes miss dumpster room opening hours Low rate of correct garbage placement Garbage room supervision is difficult, with frequent quarrels Garbage room supervisors need secondary garbage sorting	Very many people choose to put out their garbage after the garbage room is closed, so they don't have to sort their garbage Property companies invest too much in human and material resources, and at the same time do not limit the behavior of residents in separating garbage	Government cooperation can be recycled companies, residents generally do not contact, trouble, cheap prices. Variable processing pathways
