

Book presentation

# ***“An Introduction to Macroeconomics A Heterodox Approach to Economic Analysis”***

by Prof. Dr. Sergio Rossi, University of Fribourg

November 21, 16:30 – 18:00, HSLU-W, Room 426

“The forthcoming second edition of the book offers not only a critique of the mainstream approach to economics, but also a positive and constructive alternative.” Aiming to explain the real world, its authors claim to be better able to understand a money-using economy prone to periods of instability and crises.

The event takes place within Michael Derrer’s course comparing different schools of economics [michael.derrer@hslu.ch](mailto:michael.derrer@hslu.ch)
